Education			
Graduation: December 2021	University of Maryland, College Park, MD		
	University Honors, Dean's List		
	Bachelor of Science, Computer Engineering with Minor in Mathematics		
	Computer Engineering GPA: 3.4, Mathematics GPA: 3.6		
	Selected Coursework:		
	<u>Major</u> : Object-Oriented Programming, Discrete Structures, Algorithms, Organization of Programming Languages, Databases, Intro to Data Science, Signal Analysis, Circuits, Digital Logic Design		
	Minor: Probability & Statistics, Linear Algebr		
Skills		,	
	Languages: Java, Python, C/C++, JavaScript, HTML/CSS, Git, Ruby, OCaml, PHP		
	Frameworks: Node.js, React.js, Bootstrap		
	Software: MATLAB, Android Studio, Proces	sing 3, Arduino	
Projects			
	UMD Table Tennis Club Web Ap	p	Personal Project
	Created a webapp to display Thursdo	•	•
	management using React.js for frontend, and Microsoft Excel files for storing data		
	 Website visited by 20 people per weel 	< with frequent updates based or	n user feedback and necessity
	Small-C Interpreter		Academic Project
	Used OCaml to develop a lexer, parser, and interpreter for line-by-line interpretation of some		
operations of Small-C • Interpreter handles simple mathematical operations as well as logical flow elements.			ow alamonts such as if also
	 Interpreter handles simple mathematical operations as well as logical flow elements such as if-else statements and loops Currently supports primitive datatypes and common operations Social Media Usage and Perception of Data Distribution Group Project Simulated a social media platform and its data gathering and analysis abilities 		
	Used Arduino Mega to control 24 (physical) buttons to simultaneously collect and process data, and		
	 the Arduino Serial library to communicate data to Processing 3 for analysis and visualization Gained greater insight on how much information social media platforms can gather without users' 		
	knowledge	mornanon social media pianom	is can gamer williour users
Work History			
March 2020 – Present	Freelance Web Developer		
	College Park		
	Created and maintained websites for university clubs such as the Table Tennis Club		
	 Used React.js and Bootstrap for frontend and Node.js for backend to ensure a fast and aesthetically pleasing user experience 		
Aug 2019 – March 2020	Teaching Assistant		
Aug 2017 - Maich 2020	University of Maryland - College Park		
(Discontinued due to COVID-19)	 Spearheading group tutoring sessions f 	or Computer Science and Mathe	ematics classes to help
	students struggling in areas such as obj	ect-oriented programming, data	structures, calculus as well
	 as linear algebra Guided an average of 15 students per week to increase understanding, identify lagging skills and 		
	correct weaknesses	week to increase of acistatianing,	radimi, lagging skiis and
Aug 2017 –	Computational Research Intern	l	
June 2018	George Washington University		
	Conducted research regarding gene of the property of the	distribution and expression to asce	ertain causes of health issues
	 in populations under Dr. Banaudha Analyzed genetic expressions to understand similarities in social behavior among dogs and humans 		
	 Automated data aggregation to reduce 		. among dogs and nomans

Secretary, UMD Table Tennis Club

- Responsible for communication between club members and making important announcements
- Managed the club roster and ensured all members fulfilled university-stipulated requirements

Member, UMD Robotics Club

 Participated in design and programming of an underwater autonomous vehicle (AUV) for the annual RoboSub competition
